EDO MBM are an arms company based in Moulsecoomb, Brighton. EDO MBM's military products include bomb racks, release clips and arming mechanisms for warplanes. They have contracts with the UK Ministry of Defence (sic) and US arms giant Raytheon relating to the release mechanisms of the Paveway bomb system. They are a wholly owned subsidiary of EDO Corp, a US-based arms multinational corporation.

Brighton is a UN Peace Messenger City, but EDO are here profiting from the murder of over 100,000 innocent civilians. **WE WILL BE HERE UNTIL EDO ISN'T!**

EDO KILL KIDS FOR CASH

Roof occupation

Police obstruction

Roadblock

Weapons Inspection

WE CAN STOP THEM!

We have been campaigning for over a year to end EDO MBM's military activities. A **roof occupation & roadblock** in May last year closed down the factory for the day. We have held 2 summer peace camps which included demos both at the factory and in town.

The campaign has been so successful that EDO have applied for a **High Court Injunction** against protesters under the stalkers' law, the Protection from Harassment Act (PHA) 1997. Show support at the two-week **trial** at the High Court, the Strand, from **November 21st**.
